Choose 12v DC powered or 115v powered, Diesel heated

## Hot Water Generator

The **Hot Water Generator** attaches to your existing cold water pressure washer to give you the power of hot water to quickly melt away grease and grime. The cold water pressure washer provides high pressure water into the Hot Link which heats the water before delivering it through the spray gun and wand. The Hot Link is flow controlled; when the gun is pulled, the burner automatically starts and stops when the gun is released. Simply attach the Hot Link to almost any cold water pressure washer using the included jumper hose, then connect the pressure washer's hose, gun/wand and nozzles to the outlet on the Hot Link.

### HY-HB-12V

### HY-HB-115V

<b>PRESSURE</b>	Connect to any cold water pressure washer up to 4350psi (300bar)	
<b>FLOW CAPACITY</b>	Use your existing pressure washer, up to 5 gpm	
	4gpm @ 100°F heat rise, up to 200°F	4.75gpm @ 100°F heat rise, up to 200°F
<b>VOLTS / AMPS</b>	12v DC - Connect to battery on pressure washer (requires 14amp charging system)	115v, 1ph, 2amp includes 37' GFCI cord
<b>CONTROLS/SWITCHES</b>	Adjustable thermostat, lighted on/off switch	
<b>PRESSURE CONTROL</b>	Safety features include flow switch, pressure relief valve and burst disc	
<b>PRESSURE HOSE</b>	Not included – your gun and hose must be rated for at least 200°F	
<b>GUN / WAND</b>	Not included – your gun and hose must be rated for at least 200°F	
<b>JUMPER HOSE</b>	Includes 48", 5000psi, 250°F hose to connect Hot Link to existing pressure washer	
<b>BURNER COIL</b>	½" sch. 80 steel pipe, cold rolled 4 spiral, ceramic insulation	
<b>CONSTRUCTION</b>	Rugged, powder coated base frame, stainless coil wrap, and double-wall coil end caps
